Technical Specification & Domain Mapping Request

To: ICT Cell, University of Chittagong

Subject: Subdomain Allocation & DNS Record Configuration Request for fbmh.cu.ac.bd

1. Laboratory & Institutional Identity

- **Laboratory Name:** Laboratory of Food Bioactives & Molecular Health (FBMH)
- **Department:** Department of Biochemistry and Molecular Biology
- **Faculty:** Faculty of Biological Sciences, University of Chittagong
- **Principal Investigators:**
    - **Prof. Dr. Dwaipayan Sikdar** (Principal Investigator)
    - **Prof. Dr. Suman Mojumder** (Co-Principal Investigator)
- **Research Focus:** The Laboratory of Food Bioactives and Molecular Health investigates food-derived bioactive compounds and their nutritional, biological, pharmacological and toxicological effects using integrated in vitro, in vivo and computational approaches, with emphasis on molecular mechanisms, gene regulation, network pharmacology and molecular interactions.

2. Subdomain Request Details

- **Requested Domain:** fbmh.cu.ac.bd / www.fbmh.cu.ac.bd
- **Purpose:** Academic visibility, hosting peer-reviewed research archives, publishing standard operating procedures (SOPs), managing lab inventory, and student intake portals.

3. Hosting & Deployment Environment

Parameter	Specification
Hosting Platform	GitHub Pages
Repository	md-mustak-khan/laboratory_website (Public)
Current Live	https://md-mustak-khan.github.io/laboratory_website
Deployment Source	main branch (/ root directory)
Technology Stack	Semantic HTML5, Vanilla CSS3, JavaScript (ES6+), Google Apps Script API

Technical Point of Contact

- **Prepared By:** Md. Mustak Khan
- **Affiliation:** Department of Biochemistry and Molecular Biology, University of Chittagong.
- **Mobile No.**: +8801308584945
- **Email:** mdmustakkhan47@gmail.com
